

---

Part1.This is a equation and some websites.

Hello World

$$E = mc^2$$

I get 10 times more traffic from [Google](#) than from [Yahoo](#) or [MSN](#).How about you.

Part2.There are the examples of some programming language.

给出一些例子代码:

```
#include <stdio.h>
int main(int argc, char const *argv[])
{
    puts("hello");
    return 0;
}
```

This is the Java.

```
//package console;
public class Print {
    static void print(Object obj){
        System.out.println(obj);
    }
}
```

---

```
    }  
    public static void main(String[] args){  
        print("Hello World");  
    }  
}
```

**This is the MATLAB**

```
set(0,'DefaultFigureVisible','off')  
ezplot('cos(x)');grid minor  
print -dps main.ps  
!main.ps
```

**This is the Python**

```
from turtle import *  
from math import *  
speed('fastest')  
x=list(range(-50,50));  
y=[]  
for i in range(100):  
    x[i]=x[i]/10  
    y.append(sin(x[i]))  
    x[i]=50*x[i]  
    y[i]=100*y[i]  
color('white')  
setpos(x[0],y[0])  
color('blue')  
for i in range(1,100):  
    setpos(x[i],y[i])  
!main.ps
```

**This is the short code in a sentence.** Use the printf() function.

---

**Part3.These are the origin three colors.**

1. Red. 波长大约为 **630** 到 **750** 纳米，类似于新鲜血液的颜色
2. Green. 大自然界中常见的颜色。植物的绿色来自于叶绿素
3. Blue. 是天空的颜色，象征虚空、无穷以及神圣的

**Part4.Theres are some sentences.**

- Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aliquam hendrerit mi posuere lectus. Vestibulum enim wisi,viverra nec, fringilla in, laoreet vitae, risus.
- Donec sit amet nisl. Aliquam semper ipsum sit amet velit. Suspendisse id sem consectetur libero luctus adipiscing.

This is [an example](#) inline link. [This link](#) has no title attribute.

---

Part4.This is example for the picture
